Description

You will remember **Donnafucale** for the vivid green of the lawn surrounding the **pool**, the blue of the water and the wide views across the hills of **Noto**. A place to slow down and rediscover the pleasure of days spent **outdoors**, in a villa with **timeless elegance**.

A relaxing stay in an elegant Sicilian villa

Stepping into this **charming Sicilian villa with pool**, you will find bright and elegant interiors with traditional tiled floors. To the right, the living room features comfortable sofas and **wooden furnishings**, enhanced by antique mirrors and paintings.

To the left of the entrance, the refined dining room opens onto a breakfast room and a **well-equipped kitchen**. From here, you can access the shaded canopy, furnished with a dining table for **convivial meals** and sofas where you can relax.

Elegant, light-filled bedrooms for families

The **five spacious, light-filled bedrooms** are spread between the main house and the **guesthouse**, accommodating **up to 10 guests**. This layout makes **Donnafucale** particularly well suited to **family holidays and group stays**, offering a balance between generous shared spaces and more **private areas**.

From the entrance of the main house, a staircase leads to the sleeping area, where you will find two bedrooms with private bathrooms: **one twin bedroom and one double bedroom**. One of the bathrooms features a shower, while the other is equipped with a bathtub.

The building adjacent to the main house is arranged over a single floor and houses three bedrooms with separate entrances: **one twin bedroom and two double bedrooms**. All have private bathrooms, with showers in two of the bedrooms and a bathtub in one.

Garden and pool: the heart of Donnafucale

The **pool** is the **heart of this elegant Sicilian country villa**, surrounded by a **spacious area** with sun loungers and a more secluded corner with a gazebo and sofa, perfect for **relaxing at any time of day**.

Designed for **families and groups**, Donnafucale offers plenty of outdoor space to enjoy: the olive garden surrounding the pool, the field of young almond trees and prickly pears framed by characteristic dry-stone walls and shaded corners where you can sit down with a book and let time slowly drift by.
